BRIEF HISTORY OF OSCEOLA COUNTY, MICHIGAN.

THE territory comprised in Osceola County was first "laid off" by an act of legislature, April 1, 1840, and called Un-wat-tin (an Indian name); at that time there were no white settlers in the territory comprising the county. On the 8th of March, 1843, the legislature changed the name to Osceola. The first known white man who visited the county was a trapper, named Nathan Hersey, which was some years subsequent to 1843. Delos A. Blodgett made the first actual settlement, and raised the first crop (potatoes), in 1851. The first township organized was Richmond, in 1861. The first village laid out was Hersey, the present county seat, founded by D. A. Blodgett, in 1869. The first circuit court was held in June, 1870, Judge Giddings presiding. The first county officers were J. M. Foster, Probate Judge; J. A. Gamage, Clerk and Register; S. F. Dwight, Prosecuting Attorney, Circuit Court Commissioner, and Superintendent of Schools; J. Manes, Sheriff; R. F. Morris, Treasurer; E. F. French, Surveyor; E. H. Wood and J. W. Ash, Coroners. In 1860, the population was 27; in 1870, the population had increased to 2200; in 1874, 6216. At this date (1878), the population is estimated at 10,000. The organized townships of the county are Richmond, Lincoln, Le Roy, Burdell, Hersey, Cedar, Rose Lake, Evart, Osceola, Hartwick, Highland, Orient, Sylvan, Middle Branch, Sherman, and Marion. The first railroad running cars in the county was the Flint and Pere Marquette, in 1870, extending through the south tier of townships from east to west. The next railroad was the Grand Rapids and Indiana, in 1871. The villages, after Hersey, were laid out and founded as follows: Windsor, in 1870, by Mr. Windsor; Evart, in 1871, by Blodgett and Kennedy; Orient, or Sears, 1871; Ashton, by J. W. Ash, in 1871; Reed City, by J. M. Reed & Co., 1871; Tustin, in 1872, by G. R. and I. R. R.; Le Roy, by J. E. Bevins. From 1857 to 1859, Osceola County was attached to Newago County, together with Lake and Mecosteo counties. From 1859 to 1869, it was joined to Mecosteo County, with the county seat at Leon-

ard (now Big Rapids). In 1869, the county was formally organized, and included in its limits the east half of the present county of Lake.

The first election in Osceola County was held in D. A. Blodgett's house, April, 1861, with D. A. Blodgett, B. F. Gooch, and A. McFarlane, as inspectors. The first state road in the county was laid out and opened in 1865-6, by commissioner Blodgett, and extended through the county, nearly parallel with the Muskegon River, leading from Mecosteo County, near J. G. Robbins, to Houghton Lake. In 1871, the present east half of Lake County was taken from this county, leaving 16 townships. The Masonic lodges of the county are as follows: Hersey, established in 1871; Evart, 1873; also, a chapter in Evart, in 1875. The Odd Fellows instituted lodges as follows: Evart, in 1874; Le Roy, 1877; Reed City, in 1878. Patrons of Husbandry, Richmond Grange, 1876; Lincoln, 1876; Sherman, 1876; Orient, 1877. The Osceola County Agricultural Society was organized in 1875, at Hersey, where the first fair was held; the grounds are now at Evart. The first school-house was built in 1862, and is still standing on B. F. Gooch's farm in Richmond township.

The first church was erected in 1865, in Richmond township, by the Lutherans, and is yet standing. The first grist and saw-mill was built by Schofield and Blodgett (on the present site of Bellamy & Co.'s mill), in 1858. The first hotel was in Hersey, in 1869. The first store was in the village of Hersey (Kennedy's). No county in Michigan has developed with greater rapidity than Osceola. The agricultural facilities are good; the soil is varied, but mostly tending to sandy surface, with clay sub-soil. The streams are numerous, and no lack of pure fresh water. The soil is adapted to most kinds of grain and produce, and the more hardy varieties of fruit do well. There are good school buildings in the different townships. The people of the county are an enterprising, generous, and industrious class of citizens, and no county in Michigan has brighter prospects for the future than Osceola.

By the plan adopted in surveying the Public Lands of the United States, the country is divided into townships, by lines 6 miles apart, running due East & West, called town lines, and others, 6 miles apart, running North and South, called range lines. Both of these species of parallel squares are numbered in regular order from topwards, and the squares or townships thus formed, are known by a combination of both town and range numbers. Full townships of 36 square miles each, containing 36 square miles called sections, numbered from 1 to 36 thus: 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 31 32 33 34 35 36. These sections are subdivided into quarters and into quarter quarters. A full section, containing 36 acres. To locate any fractional piece of land on this map, first find the township, numbered in figures on the Principal Meridian, or other North & South line. second, the range, numbered on a correction or other East & West line, and whether the description calls for the N. W. or Principal Meridian. Then, producing the two the point of intersection is the township sought. Full 360 ft.
